

Sports Direct

Retail work

**SPORTS
DIRECT.COM**

This was a large rollout involving custom light features and standard lighting design. Back when they were known as Sports Ski we helped to evolve the brands identity while providing a fast track lighting solution.

We produced a full design pack for each site and attend regular site meetings to ensure projects ran smoothly. There were many custom designs over the years which started as initial sketches during the fortnightly design team meetings.

lighting design

PROJECT MANAGEMENT

- Full lighting design in CAD
- Lighting calculations
- Specification booklets
- Co-ordination with contractors
- Detailed design of custom lighting
- Specific delivery arrangements
- Mid-contract progress meetings
